Farm Mishap

Castleman Hurt

Charles A. Castleman, 85 years old, Canyon, remained in critical condition Wednesday in Northwest Texas Hospital where he has been treated since suffering severe injuries in a farm accident Saturday.

Police Find Rabid Skunk

A rabid skunk has been captured in Canyon. The skunk was found in the garage at the Albert Craig home at 2310 Eight Avenue April 15. City police captured the animal and its head was shipped to the state laboratory in Austin by Dr. Joe Markham, Canyon veterinarian.

A rabies positive was returned to Dr. Markham Monday.

This is the first one within the city limits," said Dr. Markham, "but we have previously had two positive reports of rabies in skunks found in the Umbarger area."

Police Chief Calvin Costley warned Canyon residents to keep their dogs confined.

"I hate to do it but I'm going to have to start picking up dogs that have been allowed to run loose," the chief declared.

"We just don't have any choice now," he went on. "There are lot of stray dogs and skunks are coming to town. We could have an epidemic."

Costley said he must take steps to protect Canyon people, especially children, against the deadly infection.

"I hope people understand," he said.

Sim Hill Dickers With Stars

Simmie Hill, West Texas State University basketball ace, Tuesday said he is negotiating a contract with the Los Angeles Stars at a figure well above \$150,000.

"It will be a lot more than that," Hill declared.

He then said he has not signed but that his agent is presently negotiating. "I'm leaving it all up to my agent," he stated.

WTSU Coach Dennis Walling said he understands that Hill is also negotiating with the Chicago Bulls.

Walling said Hill is scheduled to go to California next week for further negotiation.

uated on a 160-acre tract. Waste material will be disposed of in a nearby lake. McCarley said water from the lake probably will be used for irrigation by a nearby farmer.

The feed lot at ultimate capacity will feed 20,000 head of

steers at a time with an annual capacity of 40,000 to 45,000 head.

The automated mill to be used will be equipped for steam flaking and automatic mixing.

R. B. Gist, Jr., vice president of the coop, said mill will be the principal feed used and this will be supplied by Happy Wheat Growers.

"We expect ultimately to use about 100,000,000 pounds a year," Gist declared.

McCarley stressed that feeding will be done on a custom basis for anyone who wants to use the facility.

"We will be feeding cattle for our members as well as for anyone else who wants to feed," said McCarley. "We will not be limited to members."

"It just boils down to providing another service," declared Gist.

McCarley said the feed lot will be an additional outlet for grain produced by farmer members.

Happy Wheat Growers has about 500 members at the present time.

McCarley pointed out that the new feed lot will have some 20 employees and a payroll of about \$150,000 a year.

The coop manager expects to get the lot in operation in October of this year.

Noah Barrett is assistant manager of Happy Wheat Growers.

President of the coop is Bill Dugan. Gist is vice president and Clovis Vernon is secretary.

Directors include Henry Hamlin, J. L. Waters, Wendell Sims and John Butler.

CHS Vo-Ag Group Wins Sweepstake

Canyon High School chapter of Future Farmers of America won "sweepstakes" at the district FFA contests held Saturday at West Texas State University.

The sweepstakes award was given on a point basis for placing of teams. The CHS chapter received 27 points while second place, Spur, received 20 points.

The livestock judging team and grass judging team from CHS won third places and dairy cattle judging and land judging teams won sixth places, respectively.

Mike Breitling was fourth high individual in the livestock judging events where CHS team placed third among 67 total entries. Other members of the team are Rick Hales, Mike Trammell and Vince Wirt.

The grass judging team, which placed third for CHS, had Keith Maples as the fourth high individual. Other team members include Ralph Baten-

horst, Bobby Ellis and David Moore.

From a 65 team field, the dairy cattle judging team of CHS placed sixth with Mike Henders as fourth high individual in the contest. Others on the team were Jerry Crain, Clifford Boehning and Charlie Hamm.

The sixth place land judging team from CHS includes Kyle Sunderman, Ron Hartman, Robert Goetsch, and Bill Anderson. They qualified, by placing sixth, to go to the state land judging contests to be held at Tarleton State College, Stephenville, this Friday.

Canyon High School was also represented at the district contests by a dairy products team consisting of James Lamb, Bruce Mowry, Andy Sims and Harry Sims.

Vo-ag instructors, Marcus Phillips and James Walker, are sponsors for the various teams.

Mitchell, Morris Honored At WTSU

Eugene "Mercury" Morris, all-American halfback, and Mike Mitchell, key basketball player, were named most valuable football and basketball players for the past season at the annual West Texas State University all-sports banquet Tuesday night.

Morris, of Pittsburgh, Pa., and Mitchell, of Roswell, N.M., were presented the J. Wesley Kleinschmidt Award by the Canyon businessman who in 1936 began giving trophies to the university's most valuable players.

Mitchell also received the Fighting Heart Award, donated by the Canyon Rotary Club and given the basketball player who "must show his fighting heart by playing the hardest against all odds."

Dr. James P. Cornette, president of WTSU, presented his President's Award to Jesse Powell, senior tackle from Spur.

Morris bettered three NCAA rushing records in leading the Buffaloes to eight victories in 10 games last fall. He gained 1,571 yards rushing and finished a three-year career with 3,561 yards. He was drafted by the Miami Dolphins of the American Football League.

Mitchell scored 411 points and completed a three-year career as West Texas' second leading scorer with 1,197 points. The Buffs had one of their finest seasons in 20 years, winning 18 of 26 games and receiving a bid to the National Invitation Tournament.

Powell, who was also drafted by the Miami Dolphins, was honored as co-captain of last year's team.

To Paint Medians

City Commissioners requested Thursday night that the Texas Highway Department paint medians and left turn protectors on U. S. 87 in the city and also instructed the city attorney to draw an ordinance prohibiting parking on the highway.

The commission was informed before their action Thursday that the Texas Highway Commission had deferred action on a city request that raised concrete medians be placed on the highway.

Chili Smith, district highway engineer for the department, told commissioners that THC had granted approval of erecting a traffic signal at 23rd Street and Spur 48 and at 23rd and 10th Avenue.

FROM THE

CANYON RIM

I hope that everyone will read the account of the injury of Charles A. Castleman as it appears on the front page of this edition.

About the only thing correct in the version which appeared in an Amarillo newspaper Sunday was the fact that Mr. Castleman was injured.

The Amarillo newspaper made it appear that Mr. Castleman had lain in the field from 10 o'clock Saturday morning until about 5:30 that afternoon critically injured and that his family just hadn't bothered to go and see about him.

The truth is that Mr. Castleman was not hurt until about 4:45 o'clock and his son, Brad,

But, he said following the meeting, a telegram sent by The Taxpayers League of Canyon and signed by Roy Ray Campbell as secretary, may have convinced THC to defer action on the concrete medians.

The telegram, Smith said, protested the erection of such medians on the highway.

Smith told commissioners the THC will probably approve the installation of painted medians on the highway.

In preparation for the approval, the commission asked City Attorney Elton Cox to draw up an ordinance prohibiting parking on 23rd Street from the south city limits to the north city limits and from 22nd Street to 24th Street on 4th Avenue.

The commission was expected to take action Wednesday on the ordinance. It is to become effective within 30 days after passage.

Roy Winters, senior quarterback from Rankin, was named team captain for the past season.

During the banquet, Powell and Winters presented Head Football Coach Joe Kerbel with a large plaque in appreciation from the senior football players.

Ben Martin, head football coach at the Air Force Academy, was keynote speaker for the banquet.

Martin said he has "a great deal of faith in today's young people."

He said for him football is a game, a game of people and the game is significant in training young people.

About the younger generation Martin said "I think they are very mature beyond their age. I think this because they care about people and they actively seek responsibility."

Warren Hasse was emcee for the banquet and introduced the coaches of the various team sports at WTSU.

"One of the boys stayed with me and the other one went to get an ambulance. The boy who stayed behind and I finally got my father in my pickup and met the ambulance at the edge of the field."

The LaGrone ambulance took the injured man directly to Northwest Texas Hospital where he immediately underwent surgery.

He had suffered a broken jaw bone, severe head lacerations, fracture of the left arm and severe injury of the left shoulder, fracture of seven ribs and lung injuries.

Castleman has lived in the Canyon community since 1951.

it will increase the paperwork.

While the federal government is talking about bolstering local officers by giving them speedier access to FBI files through computer systems, the court has made it next to impossible to gain ready access to those files in any haste.

Sheriff L. S. Johnston only Monday told commissioners that he would soon be able to do a rundown on a suspect within minutes after making an arrest. He spoke before he had seen the headlines in the Tuesday papers announcing the Supreme Court decision.

There is no reason on earth for an innocent suspect to object to being fingerprinted and his record checked against those fingerprinted.

There is a passage in the Bible which I think fits those who would object to this routine investigative procedure. "The guilty flee when no man pursueth," I believe is the quotation. . . .

Right here in Randall County there is a tendency to pity the poor criminal.

Since the first of the year three incidents have led to filing of rape charges. Two other reported rape cases were dropped when the prosecutrix dropped the case.

Eleven cases of rape have been filed—four against juveniles—in connection with these incidents. One incident involved a 14-year-old girl.

The four juveniles who have faced the bar of justice in county court here have received probation. The adults have not yet been tried.

I am not saying the judge was in error. I simply point out that two decades ago, while I was a young police reporter, a suspended sentence or probation was unthinkable for a person convicted of this crime. Times are changing.

Too often we cry for the

criminal. But who has a tear for the victim?

Talk about inequities! Shirley Whitehead, Swisher County deputy tax assessor-collector, told me this week that the tax rate in her county, including county, state, road and hospital levies, comes to \$2.25 per \$100.

Top irrigated land is on the Swisher rolls at \$10 an acre while dry land is tabbed at \$8.25 an acre.

Farm improvements and city property are on the rolls at 20 percent of actual cash value.

A \$20,000 home in Swisher is taxed at the same rate as a 400-acre irrigated farm.

Tax Study Group Meets Tonight

A joint city-school tax study committee is to meet at 7:30 p.m. today to decide whether the City of Canyon or the Canyon Independent School District will manage a joint tax office.

City Commissioners last Thursday voted to consolidate tax offices, if a contract agreement can be formulated. School board members voted similarly last week.

The study committee was charged by both bodies with deciding which agency will govern a joint tax office.

The commission took no action Thursday on which should run the office.

In other action at the commission advertising for bids for the purchase by the city of an additional city police car, two 1/2 ton trucks and a building inspector's car.

City Manager Paul Davis told commissioners about 93 per cent of the city taxes, including delinquent taxes, have been collected.

Davis was also authorized to advertise for bids for a duplicating and copier machine for use in the city hall.

Dr. Manley Bryan was named city health officer in other business.

Speech Concludes Afro Week End

The failure of government to listen to moderate Negro leaders has caused many of them to give in to those leaders who seek two separate American societies, a black American society, and a white American society, said Dr. Ruben Sheler, head of the history department at Texas Southern University in Houston, said the solution lies in the development of pride and a sense of belonging in the Negro people along with "a sincere attempt at due process of law."

Dr. Sheler was final speaker of the three-day Afro-American weekend celebrated at West Texas State University. He spoke on The American Revolution Then and Now.

The professor, following an outline of the part Negroes have played in American history, said the United States is in revolution now, a revolution not only of black people but of the poor.

"In the modern revolution," he said, "it is again the blacks who are striking the blow for change."

He had previously gone into detail in listing Negro soldiers who fought in the Revolutionary War and their part in that war.

Warning of the growing revolution and desire for change, Dr. Sheler warned several times that America can only survive as a joined and unified people, that it will die separated.

He called for a revolution in the teaching of history to teach the Negroes' place in American history.

"I believe unless there is a revolution in writing and teaching, there'll come a time when school systems will end in destruction," he said. "There must be a revolution in education and in our concepts of 'history of this country.'"

The concepts of the country, Dr. Sheler said, have been established largely due to Anglo-Saxon myths.

"It is time to tell it in black and white," he said.

"Which way are we going to go?" he asked. "Will we continue with white racism which has in turn fostered black racism or can we reach about three feet—the length it takes to shake a hand?"

He warned white America to "Wake up now. It's a lot later than it's been."

In tracing the history of the black man in his relation to America, Dr. Sheler stressed heavily the Revolutionary War.

He cited the Boston Massacre, in which a Negro, Christopher Attucks, shed the first blood of the revolution.

In 1776, he said, about two-fifths of the people living in the Southern colonies were slaves.

Dr. Sheler said the principles of freedom listed in Jefferson's Declaration of Independence were concepts only for white colonists. They did not apply to the Negro population.

In earlier Afro Weekend activities, Miss Barbara Hicks was crowned Afro-American Queen.

Our World

BY ANN BROWN

We wondered who would be next to kick Uncle Sam's teeth in; now we know. As usual, the successful blackmailer came back for more.

North Korea got by with murdering one American sailor, imprisoning and torturing 82 more, and pirating an expensive ship; why not hit us again? The little bully is convinced we won't fight back.

The 31 precious, unarmed, American airmen aboard that plane would not have died, and the Pueblo would never have been attacked, if General Douglas MacArthur had been allowed to conduct a sensible war back in 1952.

And to those tragedies all the brave Americans who have been slaughtered in Korea since MacArthur was recalled, the more than 30,000 who have already died in Vietnam, the additional 200 or more who are being sacrificed to the god of stupidity every week, and it makes America look incredibly foolish.

Are we going to remain mesmerized by the Russian bear's fatuous grin until we are crushed to death by his lethal hug?

Perhaps the communists are right. It looks as if we have become a decadent people.

The average American seems far more interested in a raise in salary, a color TV set, a second car, a bigger house, a boat, ball games, and dirty movies than he is in pressuring our government to either fight communism to win, or bring our boys back home before they are all killed.

American mothers simply cannot compete with the Asians in producing cannon fodder; they are way ahead of us already.

Life in most communist countries is so miserable for the common man that swift death on the battlefield is often preferable to existing in squalor under fear and oppression. But it is not that way in our country—yet.

Granted, our lawmakers seem to be doing all they can to hasten the decay of our precious homeland that has been purchased at such a tremendous cost.

The mighty Roman Empire was not conquered from without; it decayed from within.

Funeral services for Martha Dixon Davis, 83, will be conducted Friday at 10 a.m. in LaGrone Funeral Chapel of Canyon with Rev. Strauss Atkinson, pastor of the First Baptist Church, officiating.

Mrs. Davis died early Tuesday in Lancaster, California. She had resided in Randall County since 1910 until about 5 years ago when she moved to Mojave, California to reside with a daughter, Mrs. Lillian Terrell. She was a member of the First Baptist Church of Canyon and was a former elementary school teacher here until 1953.

Born April 19, 1886 in Anna, Texas, Mrs. Davis and her husband, the late John Madison Davis, were married December 21, 1910 in Canyon at the home of her parents, the late Judge and Mrs. L. C. Lair.

Survivors include her daughter, Mrs. Lillian Terrell of Mojave, California; a son, James M. Davis of Galveston; two brothers, Harry Lair of Jacksboro and Lewis E. Lair of Newton, Kansas. She was predeceased in death by two brothers, Thad M. and T. G. Lair of Canyon.

Mrs. T. G. Lair of Canyon is a sister-in-law of the deceased and of A. W. and Tom Lair, both of Canyon, are nephews.

Interment was at Dreamland Cemetery, under the direction of LaGrone Funeral Home.

"FUNDAMENTALS OF INVESTING"

Co-Sponsored by the
Business School, West Texas State University
and
Merrill Lynch, Pierce, Fenner & Smith

If you're a new investor, or if you're thinking about investing, you owe it to yourself to take Merrill Lynch's free investment course.

In simple, easy-to-understand language, you'll learn what stocks and bonds are, why people buy them, how big dividends are, how much stocks are worth, why they change in price, and other basic information essential to the investor.

In addition, you'll find out how the New York Stock Exchange operates, what brokers do for their customers, and how to buy and sell securities. A review of the stock market today, where it stands, and where it might be heading will be included.

You'll also hear a discussion of specific stocks which our Research Department views as attractive. And you'll learn how to plan an investment strategy based on your specific needs and objectives.

Naturally, there will be plenty of time for questions about the market in general or about specific securities. And there'll be an experienced staff of Men from Merrill Lynch there to answer them.

This investment course is part of the free service that Merrill Lynch extends to investors—customers and non-customers alike. In fact, if we can be of service to you in any way with investment problems, we'll be glad to help you. All you ever pay at Merrill Lynch are the minimum New York Stock Exchange commissions when you buy or sell listed securities.

The course is being held:

Tanglewood News

BY GAY HENDRIX
New club members and soon to become full-time residents, Elizabeth and Leo Forrest will move from Hereford to Lake Tanglewood late this month if they have bought the Moore home on the North side.

Leo is retiring as manager of the rural electric cooperative in Hereford, and after a number of pleasant visits with the Hervy Vendrick's has decided that the lake is a grand place for country-loving folk to live.

Their son, Bedford Forrest, is the farm editor for Channel 10 in Amarillo, and their daughter, Cherry Anne Harrison, lives in Levelland. The Forrests are old friends of Gabe Anderson who attended Farwell High School when Leo was the school superintendent.

The teens got together Saturday afternoon to elect a committee to paint the windows of the teen room. The finger-painted masterpiece with the peace symbol is an original by Scott Tinkham.

Cory Mentzer was appointed head of the decorating committee and came up with the suggestion that as club members do their spring cleaning, they keep the teen club in mind for any old posters, pillows, and paraphernalia that the teens might use. Please drop anything that they might use by the teen room - due to a slight mishap with the door, it's always open.

Bill Rogers, a game manager

ment officer with the Parks and Wildlife Department, started patrolling the lake last weekend.

He will be out as frequently as possible-weekdays too-to enforce the Texas Water Safety Act and fish and game regulations. Boaters need to keep their Certificate of Number (registration) and coast guard approved life jackets (1 per passenger) aboard at all times. If caught without either, it is deemed a misdemeanor and the violator is subject to a fine from \$1.00 to \$100.00.

Now this doesn't mean that everyone should scatter and hide when they see Bill's grey patrol boat coming. Bill's a friendly fellow and is mostly interested in helping people if their boat is disabled and keeping order when boat traffic is heavy. If your boat is not registered you can pick up forms from Ken Turner. Bill will also check the fishermen to see that they are licensed.

This doesn't present a problem if you fish from your own property with a bamboo pole, but club members who are not permanent residents of Randall County will need a license to fish elsewhere on the lake.

If your fishing pole has a reel or winding device, however, you are required to have a license, where ever you choose to fish. A license cost \$2.15. Bill is an avid fisherman himself and sometimes gets out early with Bob Zellsman.

Three cheers for three flags

over Lake Tanglewood. Be sure to compliment Alma McKinzie for the custom flag with the Lake emblem that she made with her own two little hands!

Loyce and David Casey have plans drawn by Delbert Burrows for remodeling the old golf pro shop. The very extensive project will turn the modest little green building into an elegant three-bedroom, three-bath home with two wood-burners and a glassed in sun porch on the second floor.

Loyce's mother, Mrs. S. O. Rister has been visiting here from Abilene and is very impressed with the lovely homes and scenery on Lake Tanglewood.

David Casey is just back from a meeting with the Texas Water Commission which was very impressed with the improvements here at the club and offered suggestions for improving the dam and spillways. Work

All the Kelly kids had nice hot baths.

All the Holden kids had was a nice long wait.

How come? Gas makes the big difference.

Gas water heaters never give you a long wait or a lukewarm performance. They're so fast, so dependable, and so economical that 7 out of 10 families buy one. Shouldn't you?
